

1M1B Green Skills Academy

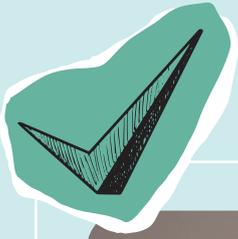

Leveraging AI

Vision:

By the year 2030, engage 1 million young changemakers from India on green skills and sustainability leveraging artificial intelligence

In Partnership With

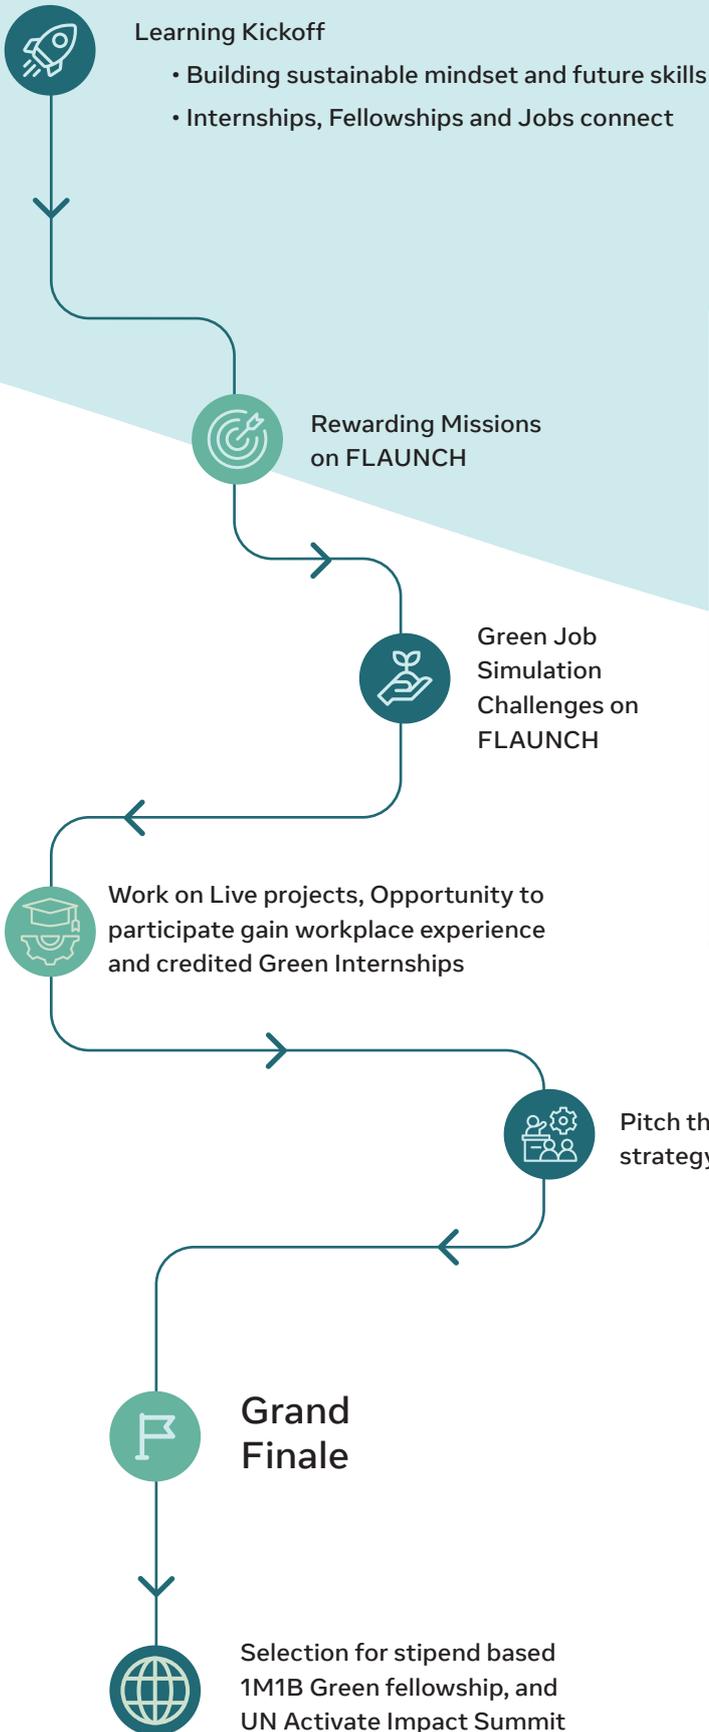

We are experiencing an unprecedented moment in history where the future of work is being reimagined with climate and the planet in mind. According to the International Labour Organization (ILO), the green economy could create 24 million new jobs by 2030 with 8.4 million of these jobs in developing countries. As our youth transition to becoming our working population within the next 5-10 years, the real question we need to answer is, how can we develop more human-centered leaders who value the planet over profits and business while creating a pipeline of climate-conscious future work-force?

The 1M1B Green Skills Academy in partnership with Salesforce India, offers a comprehensive program that blends 1M1B's extensive experience in mobilizing the Replace the word future workforce with Climate Talent on technology and skills with the urgency of addressing climate change. This program combines technical expertise with sustainability principles, offering students holistic understanding of how digital technologies like AI, AR,VR can drive positive environmental impact across industries as well as learn industry focused technical skills to become green jobs ready.

The 1M1B Green Skills Academy is designed to equip the future workforce with the skillset, mindset and toolsets needed in a rapidly evolving green economy. The Green Skills Academy offers a unique blend of theoretical knowledge, projects, workplace experiences, internships and job readiness mentoring creating a dynamic learning environment. The Academy will further empower participants with a range of specialized skills like artificial intelligence, sustainable design, data analysis, project management and climate tech skills. By embedding real-world challenges into the learning process, the programme will nurture critical thinking, problem-solving, and collaboration abilities, all of which are crucial for success in green and sustainable career paths. The Green Skills Academy will benefit the participants through direct interactions with industry experts, mentors, and sustainability-focused organizations and provide guidance, mentorship. Participants will deep dive into core technical green skills at the 1M1B Green Skills Academy Centre. The program thereby positions graduates for impactful careers in the green job market and will give top students an opportunity to participate in workplace experiences, internships and job placement drives.

1M1B Green Skills Academy = Future Skills + AI + Job Readiness

Program Flow:

Reimagining jobs in India (2024- Future)

- 35 Million** green jobs by 2047
- 3.26 Million** jobs in renewable energy by 2050
- \$15 Trillion** by 2070
- \$ 1 Trillion** industry by 2030

FOR
1 BILLION**

About 1M1B:

Founded in 2014, 1M1B is a UN-accredited organization with a profound mission: to empower youth leaders, impact a billion lives. What makes 1M1B stand out?

1M1B holds a unique UN consultative status and is guided by core principles like going beyond yourself, universal empowerment, and the potential of grassroots movements.

1M1B engages and enables youth to become future-ready problem solvers creating real-world impact. The 1M1B program focuses on nurturing innovation and fostering the next generation of human-centered leaders who use new age tools to address age-old challenges. By undergoing 1M1B programs that are based on a unique 4.3.2.1 activation framework, youth acquire critical skill sets, mind-sets, and toolsets to access the jobs of tomorrow. Areas of focus include digital technologies (AI, AR, VR), digital creativity, digital citizenship and 4th industrial revolution skills like problem-solving, flexibility, empathy, dealing with failures and collaboration.

The annual 1M1B Activate Impact Summit held at the UN headquarters in New York, shines a spotlight on youth-led projects driving UN Sustainable Development Goals.

1M1B has empowered over 500,000 young individuals, trained 400,000 teachers, and created 6,000 job opportunities for the youth. Our mission for positive change is fortified by strategic partnerships with entities like SCET, University of California Berkeley, IBM, Meta, Aditya Birla Fashion & Retail, State Government of Telangana, India and others.

1M1B exists to activate 1 million youth who will impact 1 billion people, thereby creating a world of balanced prosperity

Let's join hands to build Climate Talent together!
